Heavy-Duty Bill Counter with ValuCount™

- ▶ Selectable speeds of 800, 1,000, 1,200 or 1,500 bills per minute are perfect for cash in any state. Slower speeds allow worn bills to pass through while faster speeds sail through new bills.
- ▶ Advanced technology with an easy-to-understand interface. Errors are displayed in plain English on the screen— no need to memorize cryptic codes!
- ▶ Multiple ways to count: Add, Batch and Add plus Batch modes count bills the way they're needed.
- ▶ Power-saving One-Eye-Open™ feature switches the unit quickly from sleep to active once bills are loaded.
- ▶ UV model includes ultraviolet counterfeit detection system to ensure bills are authentic. UV/MG model includes both ultraviolet and magnetic ink detection systems.
- ▶ Infrared detectors ensure that bills are counted accurately and avoid errors such as chains, double bills and half notes.

Images shown are of the UV/MG Model which contains ultraviolet (UV) and magnetic (MG) counterfeit detection.
