

Model MS500

MAGNER[®]

CURRENCY RECYCLER

Hyosung Model MS500

Teller Cash Recycler Offering

Unsurpassed teller usability,
enhanced productivity and security

- Supports two tellers simultaneously
- Simplifies cash transactions
- Reduces balancing times
- Easy to maintain
- Improves customer satisfaction
- Reduces risk of robbery or potential loss

Teller-friendly Features

Interactive 7" LCD Touch Screen

Displays real time visibility of cash balances, unit status, note counting and guidance messages, error and jamming point explanation

Speed and Continuous Feed

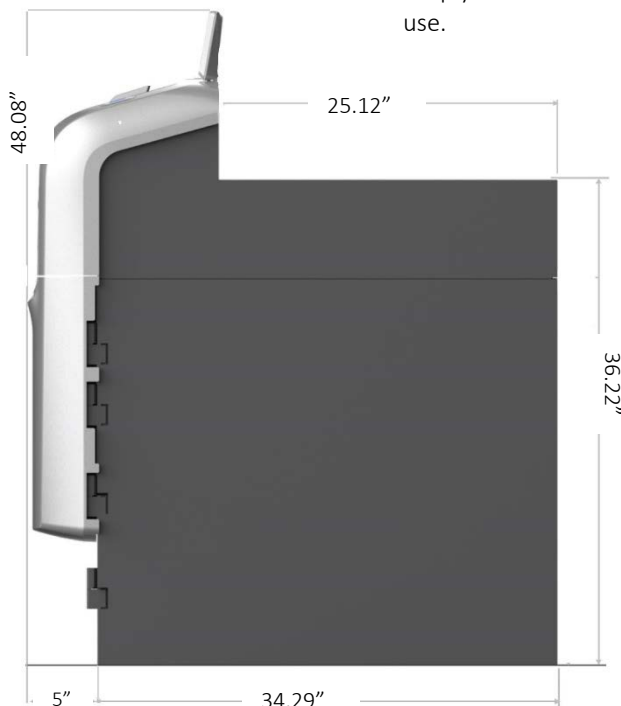

By virtue of its extraordinary deposit and dispensing speed, the MS500 gets the job done quickly. Continuous feed capability also allows bulk deposit processing with no note limit.

Intelligent Cassette Technology

- Self-auditing feature without need to physically remove cash from unit
- Loading and unloading from secure cassettes
- Configurable cassettes
- Retain totals even after removal

External Transit Cassette

Cash can be directly loaded from and unloaded to an external transit cassette, decreasing manual cash handling, risk for branch personnel and fraudulent activity. The external cassette may be used to transfer cash to other MS500 recyclers or Hyosung branch transformation terminals or simply stored in the branch vault for later use.

SPECIFICATIONS

Capacity

6 locked recycling cassettes, 1 locked overflow cassette, 1 locked transit cassette
17,250 Notes*

*Subject to note quality and other variables
